

Zachary James Stephan

Zachary James Consulting

Zacharyjamesconsulting@gmail.com

My name is Zachary James Stephan and I currently have over 7 years of digital experience. I've worked with small businesses spending hundreds of dollars, to multi-national businesses spending millions. I've worked at start-ups and giant agencies. All these opportunities have taught me the value of each dollar no matter the budget.

If you need someone to help you with your digital marketing – whether just getting started or your established looking for another set of eyes; I would be honored to help. I specialize in the following:

- Digital Strategy: Planning + Strategy + Next Steps
- SEM/Search Engine Marketing: Paid Search + Search Engine Optimization (Onsite + Offsite)
- SMM/Social Media Marketing: Paid + Organic
- Display Advertising: Banner Ads + Remarketing
- Hosting/cPanel Troubleshooting
- WordPress Web Design
- Photography / Videography

If you are an agency looking to out-source any of your advertising to a US-based individual, I would love to chat with you. I have worked with multiple agencies in a variety of roles. From purely behind the scenes to chatting with clients under a provided alias. Non-Disclosures are welcome. Rates vary depending on hours/scope.

To everyone else, I understand the digital marketing world can be daunting. So many people take advantage, hold websites/accounts captive, and outright lie about marketing budgets. I am here to help make a positive change. If you decide to work with me – I ensure the following:

- You retain your admin/ownership rights
- Full transparency on cost and budget allocation
- Open and honest communication

Thank you,

Zachary James Stephan
